

EZFORMS: Checklist & Audit Compliance

Communicate

Communicate real-time with employees in the field via integrated communication center. Publish and share newsletters to the field to make sure everyone is on message.

Share

Real-time sharing of video, files, and training documentation.

Centralize

Centralize all of your mobile forms to reduce duplicate data entry so that you can spend more time seeing more clients.

EZFORMS is a Cloud Enterprise Productivity application that gives you the ability to collect operational process data via a mobile device and provide management with business analytics and real-time insight into operational efficiency. We transform traditional business processes and create opportunities for extraordinary leaps in productivity and value creation. Our vision is to reinvent core operational and administrative functions as we support our customers in building more efficient and innovative businesses, regardless of market or industry focus.

- Improve accountability throughout the organization
- Increase transparency of daily procedures and operations to improve quality assurance
- Drive analytics within your organization to make better and more informed decisions
- Increase profit by eliminating overhead and reducing operating costs

“EZFORMS has provided us with an application that gives us the flexibility to control, collect, and analyze many of our key day-to-day operational metrics throughout our stores across the country in a matter of minutes instead of hours or days”.

GREG CLORE, VICE PRESIDENT OF INFORMATION AND TECHNOLOGY AT DAVE & BUSTERS, INC.

TECHNICAL SUPPORT

If you should need any assistance please contact us at: support@ezforms.com

Work Anytime

EZFORMS works wherever your job may take you. We architected the solution to work in both offline and online environments so that your data is collected and stored until you get a Wi-Fi or cellular connection.

Other Industries

Field Services Management
Workforce management
Facilities Management
Training
