

EZFORMS for Restaurant Operations

Create

Create 'simple' forms right from your mobile device that can be executed on your smart device or the web. Want to create more 'complex' forms? We have you covered there as well with our easy-to-use online form builder that allows you to build the forms the way you want.

Share

Create private and public forms to collect data, collect payments and automate workflows important to you.

Analyze

Real-time data analyses and reporting. Uncover and action on the trends that matter to your business. Create reports the way you want and the frequency you need to improve processes.

- Gain greater insight into your operations and enforce brand standards
- Improve compliance, safety and risk management standards
- Drive real-time analytics to make better and more informed decisions
- Increase profit by reducing safety, compliance and risk management situations that arise
- Increase transparency of daily procedures and operations to improve quality assurance
- Unlimited audits and line checks for regulatory compliance

EZFORMS is a digital document and data management platform that automates business processes by eliminating pen and paper workflows. We simplify data collection so you can interact seamlessly with customer and employees. The EZFORMS vision is the reinvention of core operational and administrative functions to support our customers in building more efficient and innovative businesses in any market.

“EZFORMS has provided us with an application that gives us the flexibility to control, collect, and analyze many of our key day-to-day operational metrics throughout our stores across the country in a matter of minutes instead of hours or days”.

VICE PRESIDENT OF INFORMATION AND TECHNOLOGY AT DAVE & BUSTERS, INC.

SUPPORT

Support available 24/7 at: support@ezforms.com

Anytime/Anywhere

EZFORMS works wherever your job may take you. We architected the solution to work in both offline and online environments so that your data is collected and stored until you get a Wi-Fi or cellular connection.

Industries

Our solution is ideal for industries and users of all types. Want to create a payment form? Are you a company wanting to collect critical operational data? Then we have you covered.

For more information on any of our products or services please visit us at:

www.ezforms.com

EZFORMS is the market-leading solution for organizations needing to create online or mobile first forms for field data collection. The EZFORMS platform improves accountability, increases transparency and optimizes operational analytics across your organization.

Product Features

- Easy-to-use online form builder for every business
